CAREER OBJECTIVE

Motivated Frontend Engineer with hands-on experience building and deploying full-stack web applications using the MERN stack and Next.js. Skilled in translating designs into responsive, performant interfaces and comfortable working across the full stack from UI to deployment. Currently completing a BSc while actively building production-style projects, and looking for a frontend or full-stack developer role to apply and grow these skills professionally.

TECHNICAL SKILLS

- Frontend: React, Next.js (App Router), responsive UI development
- Backend: Node.js, Express.js, RESTful API design
- Database: MongoDB (schema design, data modeling for products, orders, users)
- DevOps / Tools: Docker, Nginx (reverse proxy), Traefik (load balancing), Git/GitHub
- Other: MS Office (Word, Excel, PowerPoint)

PROJECTS

Bongerhut — E-commerce Web Application (bongerhut.com)

- Built a full-featured e-commerce platform using Next.js (App Router) for the frontend and routing architecture.
- Designed and managed the database using MongoDB for storing products, orders, and user data.
- Implemented interactive image/product sliders using Swiper.js for a smoother user experience.
- Containerized the application with Docker for consistent deployment across environments.
- Configured Nginx as a reverse proxy to optimize and speed up image loading.
- Set up Traefik for traffic load balancing, improving reliability under concurrent requests.

Personal Portfolio Website (hshoaib.me)

- Developed a personal portfolio website using React to showcase projects and skills.
